Dear Ms. Boyd:

Tega Cay, SC in York County is once again experiencing a sewage blockage and overflow due to the negligence of our water provider, Utilities, Inc.

Please do whatever is within your scope of influence to bring this embarrassing and unhealthy situation to an end.

We residents have been working diligently through the established channels, but the problem seems to be worsening, rather than improving!

Our property values are at stake. The health of our community members is at stake. Our lake's health and vitality are at stake.

What can and has your organization done to take action?

Sincerely,

Kathleen
